

IMPORTANT: Investment involves risk, including the loss of principal. Investors should refer to the Prospectus and Key Facts Statement of the Premia Asia Innovative Technology and Metaverse Theme ETF ("ETF") for details, including the risk factors. Investors should not base investment decisions on this marketing material alone. Investors should note:

- The ETF aims to provide investment results that, before fees and expenses, closely correspond to the performance of Premia FactSet Asia Metaverse and Innovative Technology Index ("Index"). There can be no assurance that the ETF will achieve its investment objective.
- Emerging markets risk:** The Sub-Fund invests in emerging markets which may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risks, currency risks/control, political and economic uncertainties, legal and taxation risks, settlement risks, custody risk, currency devaluation, inflation and the likelihood of a high degree of volatility.
- Metaverse risk:** The Metaverse is a new concept. Some aspects of the Metaverse may be based on untested technologies. The risks that the Metaverse may present to companies involved in the Metaverse may not emerge until the technologies are more widely used.
- Many companies have relatively limited operating histories in the Metaverse and Innovative Technology Businesses. Prices of the securities of these companies may be more volatile than other securities, especially over the short term.
- Changes in technology risk:** The profitability of companies involved in the Metaverse and Innovative Technology Businesses is particularly susceptible to product or service obsolescence due to rapid technological developments, frequent new product or service introduction and unpredictable changes in growth rates and competition for the services of qualified personnel.
- Governmental intervention risk:** Companies involved in the Metaverse and Innovative Technology Businesses is vulnerable to substantial governmental intervention, including restrictions on investments in or import/export of the products of these companies if they are deemed sensitive to relevant national interests.
- Regulatory risk and intellectual property risk:** The Metaverse and Innovative Technology Businesses is subject to increasing regulatory scrutiny, including laws and regulations with respect to privacy, data protection, content regulation, intellectual property and competition.
- Significant capital investment risk:** Companies in the Metaverse and Innovative Technology Businesses generally incur significant capital investments on the research and development of their products or services and may require substantial expenditures to improve or modify its services, products or infrastructure to adapt to rapid technological changes.
- Cyberattack risk:** Companies involved in the Metaverse and Innovative Technology Businesses are prone to failures of or breaches in cybersecurity, which include cyberattacks or outside attacks such as denial-of-service attacks through efforts to make network services unavailable to intended users.
- The Sub-Fund's investments are concentrated in the Metaverse and Innovative Technology industries sectors in the Asian market. The Sub-Fund's value may be more volatile than that of a fund having a more diverse portfolio and may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the Asian market.
- Investing in companies in the metaverse and innovative technology fields will subject to additional risks such as regulatory risks, financial risks and new business risks. Companies pursuing disruptive innovation may be less profitable at the outset and the Sub-Fund may suffer losses by investing in them.
- Stock Connect associated risk:** The relevant rules and regulations on Stock Connect are subject to change which may have potential retrospective effect.
